

Diabetes Education Program

Diabetic Society of Singapore is conducting diabetes education sessions to reach out to people affected with diabetes. Diabetes is a chronic condition and it is the eighth most common cause of death in Singapore.

Our Diabetes Education Program is designed to help you understand the disease, learn to manage and maintain good health despite your diabetes. Our nurse educators will guide and advise you during the sessions. Partners or support persons are welcome to attend the sessions with you.

新加坡糖尿病協會糖尿病患者自助課程

為了幫助糖尿病患者更有效的控制糖尿病，我們將開辦糖尿病自助課程提供正確的知識及護理技巧。

內容包括：

- 糖尿病基本病理及危險因素
- 病發症
- 藥物須知
- 運動須知
- 飲食控制
- 自我測驗血糖

完成課程後，您將能夠：

- 認識糖尿病的危害性
- 飲食控制
- 以及自我測驗血糖
- 更有信心面對糖尿病
